Green and social loan advisory	Setting sound and practical qualification criteriaDigital web-tools
Capacity building	 Preparing for client discussions on financing sustainable activities Impact of green finance on municipalities activities

Providing banks with criteria and assessments of green bonds

Case Study

Ahead of SpareBank 1 Østlandet's first green bond issuance, Multiconsult delivered a report on the bank's portfolio:

ASSET

- energy efficient residential and non-residential buildings
- hydropower
- forestry operations
- electric vehicles

RESULT OF INVESTMENT

- energy efficiency
- renewable energy production
- carbon storage
- fuel switch

METRIC

- energy performance
- avoided emissions compared to a baseline

Multiconsult provides the bank with annual impact analyses, describing the assets energy performance and avoided emissions. Multiconsult has developed a digital energy savings calculator now integrated in the bank's web pages.

Multiconsult set the market standard for mortgage-backed covered bonds together with **ING** back in 2018:

- James Riley, Financial Institutions Debt Capital Markets, ING

[&]quot;... Multiconsult's expertise on a broad range of sectors, including residential & commercial buildings, renewable energy and transportation has been well recognised by the most sophisticated of green and ESG focused investors.we appreciate the detail and robustness of the approaches used in relation to both baseline assessments and impact reporting in relation to green bonds."
